EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Reasons for allowance

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest a method and an apparatus of a micro-electro-mechanical (MEMs) device comprising a component layer movably connected to the frame; an actuator layer; at least one spacer to separate the component layer and the actuator layer by a vertical gap spacing and ***at least one resilient member coupled to the component layer and the actuator layer wherein the component layer, spacer and actuator layer are held in laterally aligned and vertically spaced relation by resilient force*** from the resilient member as recited in claims 1 and 24.

The examiner agrees with applicants' arguments on pages 2-4 in the remarks accompanying the amendment of August 25, 2003, and fully concurs that the Tilmans et al. reference does not disclose or suggest the highlighted limitations above.

Claims 1-37 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
